

# STATISTICAL METHODS IN R&D

## Part II: Advanced Experimental Designs

# Table of Contents

## 1 INTRODUCTION

### 1.1 Training Objectives

### 1.2 Role of Statistics in R&D

## 2 ACCOUNTING FOR VARIABILITY IN EXPERIMENTS

### 2.1 Why design experiments?

### 2.2 Basic principles in design of experiments

### 2.3 Structure of an experimental design

## 3 REVIEW OF STATISTICAL HYPOTHESIS TESTING

### 3.1 The null and the alternative hypotheses

### 3.2 Risks in hypothesis testing:

#### 3.2.1 Confidence level: (Type I Error)

#### 3.2.2 Power, Type II Error and sample size determination

### 3.3 What is the p-value?

### 3.4 Illustration

## 4 ACCOUNTING FOR VARIABILITY IN THE EXPERIMENTAL UNITS

### 4.1 Review of factorial designs

#### 4.1.1 Construction

#### 4.1.2 Important considerations in factorial designs: number of repetition, randomization

#### 4.1.3 Analysis

### 4.2 Block Designs

#### 4.2.1 Introduction

#### 4.2.2 Construction

#### 4.2.3 Randomization

#### 4.2.4 Analysis

#### 4.2.5 Interpretation

#### 4.2.6 Case studies

### 4.3 Incomplete Block Designs

#### 4.3.1 Introduction

#### 4.3.2 Construction

#### 4.3.3 Randomization

#### 4.3.4 Analysis

#### 4.3.5 Interpretation

#### 4.3.6 Case studies

## **5 CONTROLLING TWO FACTORS THAT INDUCE VARIABILITY IN THE EXPERIMENTAL UNITS: LATIN SQUARE**

- 5.1 Introduction
- 5.2 Construction
- 5.3 Randomization
- 5.4 Analysis
- 5.5 Interpretation
- 5.6 Case studies

## **6 USE OF COVARIABLE(S) IN EXPERIMENTAL DESIGNS TO REDUCE EXPERIMENTAL ERROR**

- 6.1 Introduction
- 6.2 Construction
- 6.3 Randomization
- 6.4 Analysis
- 6.5 Interpretation
- 6.6 Case studies

## **7 HOW TO ACCOUNT FOR RANDOMIZATION CONSTRAINTS : THE SPLIT-PLOT DESIGN**

- 7.1 Introduction
- 7.2 Construction
- 7.3 Randomization
- 7.4 Analysis
- 7.5 Interpretation
- 7.6 Case studies

## **8 HANDLING REPEATED MEASURED EXPERIMENTS**

- 8.1 Introduction
- 8.2 Construction
- 8.3 Randomization

**8.4 Analysis**

**8.5 Interpretation**

**8.6 Case studies**

**9 SUMMARY**

**10 REFERENCES**
